

CORPORATE TEAMBUILDING

Teambuilding: A process or action that improves the effectiveness or functionality of a group of people bound by a common purpose.

**“THIS IS MORE THAN
JUST FUN AND GAMES,
THIS IS REAL LEARNING!”**

Every LTI teambuilding program is custom designed based on your business objectives and expected outcomes. Our design process ensures that every LTI program will:

- **Model** your actual business situation to speed transference.
- **Engage** your entire team to maximize buy-in.
- **Reinforce** your management style and culture to ensure fit.
- **Promote** new insights based on direct observation & discussion.
- **Practice** and refine new ideas & behaviors in a safe environment.
- **Focus** on direct and immediate application and next steps.

If training is not consistent with who you are, there's very little chance that it will last.

**WE FOCUS ON
UNDERSTANDING YOUR
VISION, VALUES,
& CULTURE!**

**“WE FORGET WHAT WE
HEAR, WE REMEMBER
WHAT WE SEE, WE
UNDERSTAND WHAT
WE DO.”**

We are professional management consultants committed to helping our clients develop real world business solutions. Teambuilding is just one of the many tools that we use to address issues such as:

- **Communication**
- **Listening**
- **Team Development**
- **Collaboration**
- **Project Planning**
- **Time Management**
- **Change Management**
- **Process Improvement**
- **Trust & Integrity**
- **Virtual Teams**
- **Customer Service**
- **Delegation**

**ASK YOURSELF...
“CAN I AFFORD NOT
TO USE LTI?”**

1. Professional facilitators with real world business experience.
2. Sessions designed around your business objectives rather than trying to fit your needs into a canned program.
3. Activities that keep everyone engaged, not just those with specific skills or interests.
4. Programs designed specifically for adult business professionals, not the general public or youth groups.
5. Discussions focused on actual application, not just superficial interpersonal insights.
6. Solutions that are aligned with your organizational culture and individual management style.
7. A constant focus on business application and practical solutions.
